

2020 Bethel Trustee Report

What a year it has been for 2020. The Lord has truly blessed our church family during some very difficult times. With a lot of projects going on and the new difficulties in live streaming services, there was always the funds and the people to help get things done.

Some of the projects completed this year, or almost completed are:

The front foyer is almost all completed. Left but a little more trim to be installed. But the flooring, drywall, and painting has been completed.

Work has started on the children's worship center, and is in progress now.

A lot of work went into upgrading tech systems throughout the church to be able to better live stream our church service.

New batteries were installed in our floor scrubber to keep the floors in good shape.

The heating boiler was replaced for the children's worship center.

And lastly, the countless small tasks that are done around the church. From replacing light bulbs, salting sidewalks, cleaning the church, outdoor maintenance, indoor maintenance, and setting up for events.

Thank you to all that have pitched in to help with those tasks.

May 2021 bring more blessings for our church, and continued support for our upcoming projects. Continue to pray for our families, friends, church, and nation.

God is good. All the time.

Sincerely, Les Ferguson

Trustee: Bethel Missionary Church
